

# One Window Mold Three Different Windows

## WHY CAVITY WINDOWS?

Avoid job site damage by installing windows any time; from the day forms are stripped to closing day!

## The Choice is Yours

Windows help set your basements apart from the competition. They are an integral part of a complete home, not just the foundation because your windows remain in view to homeowners. That's why Western Forms aligns itself with quality manufacturers of vinyl and aluminum windows. Together, we bring the best value, affordability, and quality to your homeowners. Knowing you always get a reliable window, all you have to do is choose which one you want. And, with three distinct styles that all fit the same mold, choosing has never been more fun.

Vinyl Slider.....29" x 17" .....	#508900	
Vinyl Slider.....29" x 23" .....	#508906	
Glass Block Hopper .....	29" x 17" .....	#508800
Glass Block Hopper .....	29" x 23" .....	#508806
Clear Pane Hopper.....	29" x 17" .....	#508912
Clear Pane Hopper.....	29" x 23" .....	#508918

Western Forms believes in offering contractors the products you need to get the job done quickly, effectively, and correctly the first time, every time. As the leader in aluminum forming equipment, Western Forms knows design, value, and reliability all come from experience. That's why Western Forms only offers you windows from manufacturers who SPECIALIZE in producing the highest quality windows at competitive prices.

## The Vinyl Slider

The clean lines of the Vinyl Slider complement any style of architecture. A reinforced sash and interlock improve security as the brass roller system still allows easy glide operation.

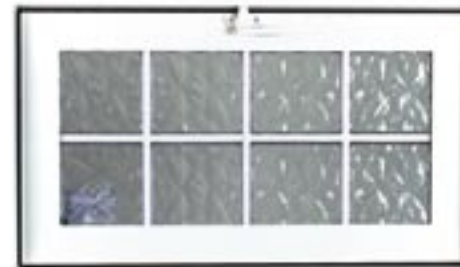

All vinyl construction resists heat and cold transfer, while the narrow frame design allows more basement light through. The Vinyl Slider offers 7/8" insulated glass for maximum energy efficiency and meets ASTM requirements (labeled for both NFRC and AAMA).

Homeowners rest easy knowing the warm edge insulated glass comes with a 10-year warranty and the fusion-welded sash and frame design will not pull apart or leak.

## The Glass Block Hopper

With more and more homeowners turning the basement into useful living spaces, the Glass Block Hopper offers an attractive new look.

6" Acrylic glass block with all vinyl maintenance-free window adds a touch of elegance. Acrylic glass

block has the energy efficiency of 3/4" insulated glass. The Wave Pattern glass block offers privacy. Best of all, this window opens for ventilation, offering your homeowners a cool breeze and fresh air.

## The Clear Pane Hopper

With the ease of hopper operation and the ability to add extra ventilation and lighting to below-grade living space, the Clear Pane Hopper is clearly a winner for homeowners.

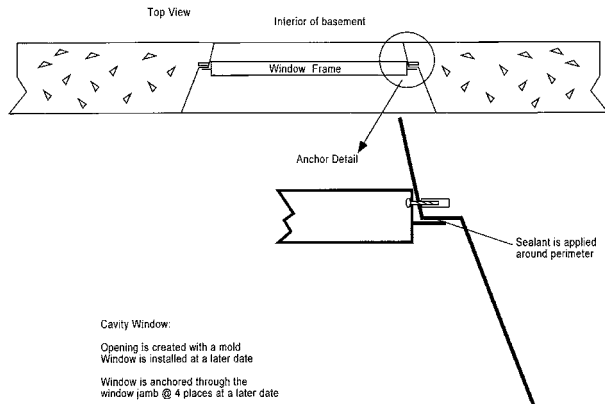

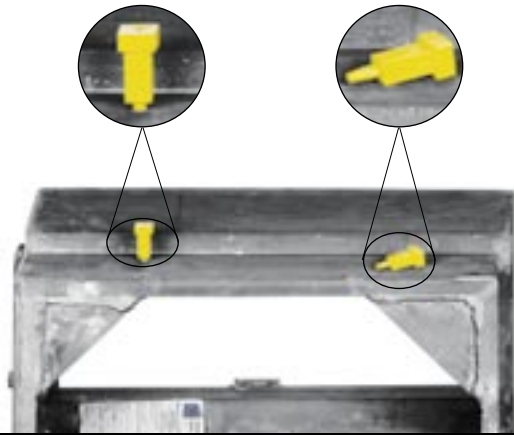

Maintenance-free vinyl construction preserves the attractive appearance of this window. Homeowners enjoy the full-tilt sash that offers easy cleaning, and extra fresh air while providing energy-efficiency that can reduce heating and cooling costs.

Need accessories for your windows? Western Forms offers a full line of window mold extensions, lintel cones, and window wells to finish all of your jobs professionally, reliably, and beautifully.
